My dear Mr. Jamison

I am very

responsible & have

kept from telegraphs

so long. I have for

a long time as hard a

heart finished but I

John O Brien which

I have been hoping

for the opportunity to

complete & which it

seemed a favorable thing

I left the pictures.
Now I am sure
that longer detaining
them would be futile.
& so I send them back.

I have as yet
no news of your book.
but as there was no
steamer between the last
Nov. & the 17th Dec.
leaving Liverpool - it could
not have been sent till
that date - & then steamers
are very slow - stopping
at many ports.

I should have a letter

from Mr. Powers this
week to answer to mine
informing him that no
ship papers or other Love
arrived here according
to promise.

I hope from
health continues good,
notwithstanding the
caprices of Cold & Warm
that rule our January
skies, & which between
us we plan to run.

When the marble comes,
I shall send for Jem &
Jane Junkeps, again. (after
I have devised it) & think
we shall not have to wait
long for it.

Sincerely Yours
Jean McJanier
